Discover the Latest News from Inside the REVERSE Project

REVERSE is an ambitious project which started in the midst of the COVID-19 pandemic. Through dedication, collaboration and commitment, we have overcome many challenges. REVERSE is on track and we would like to thank all partners, collaborators, and particularly all hospitals for their exceptional work"

PD Dr. med Walter Zingg, June 2024

We're delighted to share with you the very latest updates from the REVERSE consortium, directly from the work packages.

Hear about the progress, the milestones, and all the exciting news.

◀ Annual Project Meeting

The third annual project meeting for REVERSE saw members of the consortium reconnecting in Barcelona, Spain. With representation from all corners of the project, **the updates were exciting, the conversations fruitful, and the future looks bright!**

« ABS Implementation Workshops

The first ABS implementation workshop took place from 4 to 5 April 2024. Representatives from six hospitals in cohort one gathered in Zurich, Switzerland

to discuss technical aspects of ABS, explore interactive case studies, and develop their implementation strategy.

[Read more about the presentations and topics for discussion.](#)

Cohort two will be attending their ABS implementation workshop from 27 to 28 June.

◀◀ ABS Site Visits

The REVERSE Implementation team (WP5) has been busy!

Laiko, Athens
Nov. 2023

Gemelli, Rome
Jan 2024

Spain
March 2024

IPC-focused site visits are now complete. The team conducted a series of interviews with the relevant stakeholders to understand the different context for IPC implement in different hospitals.

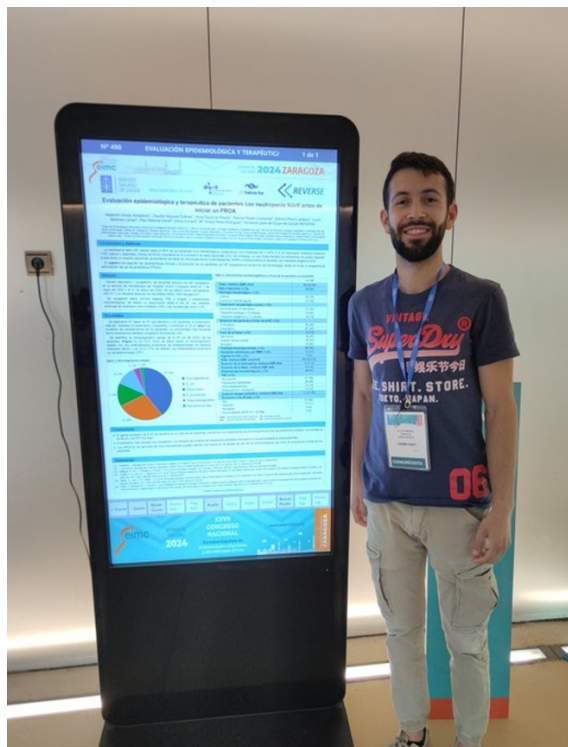

ABS-focused site visits are progressing well. The team have visited Greece (November 2023), Italy (January 2024), and Spain (March 2024).

Currently, the team are onsite in Romania.

◀◀ WP4 ePoster at SEIMC 2024

Members of the REVERSE consortium from Galicia were in action at the **27th Congress of the Spanish Society of Infectious Diseases and Clinical Microbiology (SEIMC) 2024.**

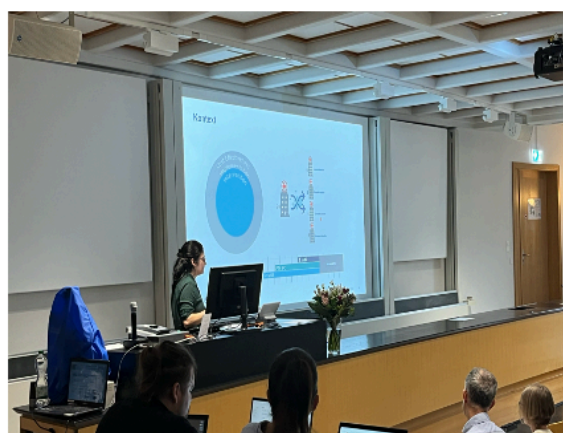

Study nurse and coordinator, Alejandro Araújo Ameijeiras and team presented their ePoster entitled:

- Preparation to the implementation
- Empiric antibiotic therapy guidelines for febrile neutropenia, which looks at screening for resistant organisms and adjusting febrile neutropenia prophylaxis in patients with hematologic malignancies and BMTs).

◀ Basel-Bern-Zürich Training Symposium

Recently, the **Basel-Bern-Zürich (BBZ) Symposium** on infection prevention and control took place in Zurich, Switzerland. This joint training course is designed to strength cooperation and exchange between the departments. **Dr. Ashlesha Sonpar**, Scientific Project Manager for REVERSE was onsite exploring the **challenges** posed by the development of antibiotic resistance and presenting **possible solutions**.

Spotlight: WP 6 - Economic Effectiveness

Major Tasks:

Analysis on the effectiveness of the different intervention programmes on primary and secondary outcomes; cost effectiveness analysis based on existing evidence (updated SR) from high-income countries and results of clinical trials and developing evidence base for extrapolation to LMIC.

Umbrella Review:

An umbrella review (i.e., a review of reviews) of economic evaluations of interventions for the prevention and clinical management of healthcare-associated infections (HCAIs) in hospitals, with a particular focus on infections resistant to antibiotics, is ongoing.
